

2-ETHYLEXANOL

Product identifier

Chemical name: 2-ethylhexan-1-ol

CAS Number: 104-76-7

Specifications & Physical Properties

Purity (by GC, area%): $\geq 99.50\%$

Chromaticity (Pt-Co scale): ≤ 10 Hazen

Density (at 20°C): 0.8320 ± 0.0010 g/mL

Acidity (as acetic acid): $\leq 0.01\%$ w/w

Carbon-based compounds (as 2-ethylhexanal): $\leq 0.05\%$

Sulfuric acid color test (Pt-Co scale): ≤ 25 Hazen

Moisture content (Karl Fischer): $\leq 0.10\%$ w/w

Storage

Keep container tightly closed in a dry and well-ventilated place, out of direct sunlight.

Store in cool place. Protect from freezing, do not expose to extreme temperatures.

Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Keep away from heat and sources of ignition - No smoking. Store locked up.

Packaging

170kg net HDPE drum

850kg net IBC tote

Custom packaging configurations are available upon request.
